At **Celebrate Planet Earth**, we passionately believe that experience, celebration & play connect children –& all of us–to the natural world.

Our aim is to inspire millions of children to celebrate & protect the Earth every year through actions large & small.

Celebrate Planet Earth puts nature into the hands of children. With classmates & family members, children plant sunflower seeds, observe the metamorphosis of butterflies, feed birds & care for gardens & trees.

Our vision is to grow the next generation of heartfelt conservationists.
